DETAILED ACTION

Response to Arguments

Applicant's arguments filed March 21, 2005 have been fully considered but they are not persuasive.

Drawings

The newly submitted drawing Fig. 1, voltage divider (123, 124) wasn't label.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 4, 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claim 1, 2, 4, 5, the "effective references" are not clearly defined in the specification. What does applicant mean by "**effective reference**"? How the **reference** is **effective**?

- Claim 1, it is unclear which "circuitry" having the claimed function is intended.

- Claim 1, it is not clear which "**the type**" is intended.

- Claims 4, 5, where in the specification that stated **the effective reference** is **the supply rail** or **a voltage divider** as claimed in claims 4 and 5 respectively.

- Claim 4 recites the limitation "**the supply rail**" in line 2. There is insufficient antecedent basis for this limitation in the claim.
